Compac Panels™

Surfaces creating inspiration.

A division of the CompacGroup™ CompacGroup™

ABOUT

A part of a multi-generational family company Compac Group, Compac Panels uses decades of knowledge to process and press a huge array of laminates, right here in New Zealand.

Based in Dargaville, Northland New Zealand.

CORE FOCUS:

Delivering results for your project by:

- Using the correct product for the application.
- Following your inspired design.
- Making the supply process seamless.

FACTORY

SATINWOOD

RANGE OF THICKNESSES | MATCHING EDGE TAPE | NZ PRESSED | 1WEEK PRODUCTION TIME

SATINWOOD

SatinWood is a premium matte wood finish that is overlaid onto MDF or Plywood to provide a surface that is easy to keep clean, resistant to fingerprints and is a perfect finish for any interior. SatinWood is ideal for vertical applications, and the surface is created using a polypropylene-finished laminate which has exceptional processing qualities.

ACRYLIC

RANGE OF SURFACES MATTE/ GLOSS | MATCHING EDGE TAPE | STOCKED | 1WEEK PRODUCTION TIME

ACRYLIC

A superior range of gloss and matte panels for interior cabinetry. Crafted using TruColour, a multilayer UV barrier technology, StyleLite Acrylic is the perfect material to create luxury kitchen and bathroom cabinetry, bespoke furniture, and feature panels. The laminate is made in Australia and pressed to the board in our NZ factory to order.

StyleLite Acrylic is available in a range of coextruded solid colours with matching edging available.

SHARKNOSE

IDEAL FOR HANDLELESS KITCHENS | LOWER LEAD TIMES AND PRODUCTION COST | STREAMLINED PROCESS | RANGE OF SURFACES

SHARKNOSE

A complex multi-edged profile ideal for handless kitchens to suit the rising demand for minimalist spaces.

- Range of **Acrylic** surfaces for this profile.
- Ideal **Matte Surface**, anti-fingerprint and easy clean.
- Supplied in **2440mm** planks
- More **Efficient** production process

There's a strong demand for handless kitchens, Acrylic TruMatte provides the perfect anti-fingerprint surface to withstand the constant use of handleless storage.

We press and edge the board, putting the manufacturing process firmly within your control without the need for third party suppliers. Speed up production and lower costs.

TITANPANEL

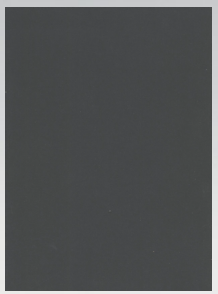

RANGE OF SURFACES/ COLOURS | MID-RANGE | STOCKED | 1WEEK PRODUCTION TIME

TITANPANEL

A high-quality decorative panel with improved impact resistance, TitanPanel consists of either MDF or plywood substrates overlayed by a decorative Continuous Pressure Laminate (CPL). CPL has a melamine-impregnated surface and is just 0.2mm thick.

Available in a range of solid colour, and woodgrain finishes.

perfect for:

Kitchen Cabinetry | Bathroom Cabinetry | Laundry Cabinetry | Shopfitting's & Displays Hospitality Furniture | Interior Wall Linings | Motorhome & Caravan Interiors Commercial Automotive Joinery

TITANPANEL

PANELLAM

RANGE OF SURFACES/ COLOURS | MID-RANGE | STOCKED | 1WEEK PRODUCTION TIME

PANELLAM

The PanelLam range is the perfect product for where colours and versatility are needed. The stocked range of HPL's (High Pressure Laminate) are pressed on to a Plywood or MDF substrate at the CompacPanels factory ready for final manufacturing into commercial furniture, wall lings, doors, and much more. The HPL surface is 0.8 – 1mm thick and high wearing, heat resistant and very versatile.

PUREMATTE

PANELLAM
PUREMATTE

PureMatte HPL utilizes nanotechnology which provides an ultra-hard-wearing, soft-matte surface that repels fingerprints and greasy marks. The PureMatte surface can be used for residential and commercial applications with both horizontal and vertical use. This product truly is best in class with the 0.8mm HPL having the same colour throughout makes machining a breeze delivering flawless results consistently.
